SUMMARY

Final-year Software Engineering student who started his technical journey in Backend Development, building scalable web platforms and APIs, and later transitioned into AI Engineering. Passionate about exploring advanced Artificial Intelligence, Machine Learning, and Natural Language Processing to solve complex real-world challenges and develop intelligent software solutions.

EDUCATION

University of Haripur
BS Software Engineering

2023 – Present

EXPERIENCE

- Developers Hub Corporation — Backend Developer Intern** Dec 2025 – Feb 2026
(Remote)
 - Developed a backend-focused e-commerce web application using Python and Flask.
 - Worked with SQL/database integration, Git, and GitHub for version control.
- Glaxit Software House — AI Specialist Intern** Jun 2026 – Sep 2026
(On-site)
 - Worked on machine learning, NLP, and AI-based data processing pipelines.
 - Built AI/ML APIs using FastAPI and practiced model deployment with Docker.
 - Worked with automation, evaluation, and monitoring of AI systems.

TECHNICAL SKILLS

Languages	Python, C++
Backend	Flask, FastAPI
Database	SQL, PostgreSQL
AI/ML	NumPy, Pandas, Scikit-learn, NLTK, Hugging Face, PyTorch, TensorFlow
Tools	Git, GitHub, Docker, Apache Airflow, Google Gemini API

PROJECTS

- Auto Reply Chatbot:** AI-powered chatbot designed to generate automated responses using natural language processing and AI technologies.
- Weather Tracking System:** Python-based weather management system upgraded with a real-world weather API for retrieving and working with live weather data.
- NoteGenius AI — AI Study Assistant:** AI-powered study assistant that processes PDF, DOCX, and TXT files to generate summaries and interactive quizzes.
- NovaCart — E-Commerce Web Application:** Full-stack e-commerce application featuring product management, shopping cart, checkout, and order processing using Flask and SQLite.
- CareerCompass AI — AI Career Planning System:** AI-based system that generates personalized career paths, degree and university recommendations, skills, certifications, and career roadmaps.

CERTIFICATIONS

- Backend Development Internship — Developers Hub Corporation | Feb 2026
- Introduction to Generative AI — Google & Claude | July 2026
- AI Specialist Internship — Glaxit Software House | Sep 2026
